

# TYT TH-9800 User Manual 28 Pages

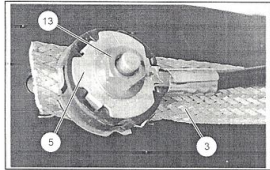

8. Install AM/FM antenna.
- a. Mark two holes in RH fender for antenna mounting post ① and alignment pin ② on antenna base ③. Center of alignment pin hole should be 9/16 inch (15 mm) REARWARD from center of mounting post hole.
- Drill two holes at marked locations:
- 1/2 inch (12 mm) diameter hole for mounting post ①
  - 3/16 inch (5 mm) diameter hole for alignment pin ②

**IMPORTANT**  
Ensure location of base allows for desired tilt of mast (installed in Step e. below).  
Control drill depth to prevent damage to underlying structure or components.

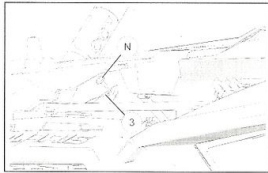

- b. Insert threaded post and alignment pin located on antenna base ③ through holes in fender, attach ground strap ④ and antenna harness ⑤ as shown, then secure with steel nut ⑥. Do not remove nylon nut pre-installed to threaded post.

Install rubber boot.

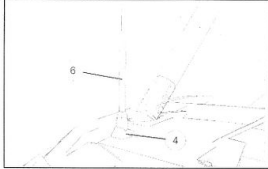

- c. Remove one screw ⑧ from top of firewall, then install opposite end of ground strap ④ to firewall (vehicle frame) using same screw.

**NOTE**  
Ground strap improves AM reception.

- d. Route connector for antenna harness ⑤ rearward through firewall grommet and connect directly to display ⑦.
- e. Thread antenna mast ⑥ to antenna base ④.

9. OPTIONAL: Drill 7/8 inch (22 mm) hole in top of dash storage compartment, route USB connector from display ⑦ into compartment, then install grommet.
